ATTENDANCE POLICY

Attendance is a major key to student success in school. When students are in class daily, they gain knowledge from the instruction and build upon their own knowledge and ability. Students gain the opportunity to enhance their learning through supervised practice, social skills gained from interaction with other students and expertise from the instructor. The high school office understands there are illnesses and emergencies that sometimes will occur. These occurrences may cause the student to miss school. However, please prearrange all other absences with the school office and plan on having the student collect work from his/her teacher so that he/she will miss as little classroom instruction as possible. **Upon missing ten days (10) of any one class, not including absences due to school-related activities**, **the student will be denied full credit in that class or classes**. Parent contact will be made when attendance becomes problematic.

Excused Absences

1. Absence due to illness or health related conditions, extended illness due to verified health condition, family emergency or religious purposes**.**
2. Pre-arranged absences of parent approved activities when also approved by school principal/vice-principal**.**

3. Participation in school approved activity**.**
4. Absences resulting from disciplinary actions or short-term suspensions**.**

Unexcused Absences

Absence from school without the knowledge or/and consent of either the school officials or the student's parents/guardians is considered an unexcused absence. Students who are ten (10) or more minutes late to a classroom will be considered unexcused.

Returning to School after an Absence

A student returning to school after an absence must present a signed note from a parent or guardian acknowledging the absence to the office. **The student will be given an admittance slip to have signed by all their teachers and turned into their advisor at the end of the day.** If no written note from the parent/guardian is presented to the office; the student will be assumed to be truant. Students and parents have two (2) school days following an absence to present a written note of explanation for inclusion in the student's attendance file.

Truancy – Suspension

A student who is truant (skips school) or leaves the school grounds without official permission will be subject to discipline including suspension from school. **According to Washington State law, continued truancy is grounds for long-term suspension from school and a referral to the juvenile court system. Washington**

State law holds students' ages seven (7) through seventeen years (17) of age and their parent(s) or guardian(s) accountable for the student's attendance. Under state law RCW 28A.225.035, school districts are required to petition the juvenile court for legal action after a student has:

1. Seven (7) unexcused absences in a calendar month.
2. Ten (10) unexcused absences in a year.

*Student's who accumulate ten (10) or more absences regardless of reason, will be subject to stricter guidelines by administration. Administrators will notify parents in writing that future parent notes sent to excuse absences will not be accepted and will be marked unexcused by administrator. **A doctor's note will need to be provided in order to excuse a student illness**. Without this note we will not count illness as an excused absence. Truancy petitions to the Yakima County Juvenile Court system will be processed for you and your child.

***Missing class for a field trip**

Students are required to obtain and complete a pre-arranged form for any class field trip. You will not be allowed to attend any field trips if you have not completed and submitted to the office the pre-arranged form within 24 hours prior to the scheduled trip. Included on the pre-arranged form are specific criteria allowing you the opportunity to attend such field trip: attendance record, current grade and teacher signature validating your opportunity to attend the field trip. If a teacher does not sign your pre-arranged absence due to attendance, testing or other action taking place in their course you may not be allowed to attend the trip**. Additionally, if you have a D or F in any class you will not be allowed to attend.**

ACCIDENTS

Students injured during class or at any extra-curricular activities are to report the accident immediately to the faculty member supervising the student(s). Claims for student insurance may not be paid unless the accident is reported at the time of the injury. Faculty members will complete the necessary accident forms and return them to the school office. If you are injured in an area not directly under supervision, report the accident immediately to the high school office.

ACTIVITY CARDS

All student activities, such as athletics, assemblies, dances, clubs, etc.**,** are financed by student generated funds. One of the most important sources of revenue for these programs is the student activity card- ASB. Students participating in all athletic and activity programs are required to hold a valid activity card for the academic year to be eligible for participation. The cost of the card is ***$35.00***. Students with a valid activity card are provided with free admission to all athletic events at home events and reduced admission at away events.

ATHLETIC ADMISSION FEES

Admission fees are charged at the following events: volleyball, football (except for JV games), boys' and girls' basketball, soccer and wrestling. Admission fees are recommended by the South Central Athletic Conference to which Granger belongs. Gate prices are as follows:

Adults $5.00
Students without ASB Card $5.00
Student with ASB Card (Grades 9-12) $4.00
Students (K-8) $4.00

CLASS SUPPLIES

Some classes may require additional fees for students to complete special projects. Courses such as Art, Physical Education, etc may have fees or require students to complete special projects. Physical Education will require the students to purchase PE clothing specifically for the course. The PE clothing can be purchased in the school store. Fees will be collected in the office and receipt will be provided.

CLOSED CAMPUS

Students may not leave the campus during the school day without a signed note from their parent/guardian and or a phone contact with the office personnel. The office may deem it necessary to contact the parent via telephone if a parent was not able to provide the written documentation for a student to leave the campus.

COUNSELING

Counseling service is available to all students. If any student has a specific problem, questions about his/her schedule, questions about career planning, etc., he/she can contact Mr. Herrera in the counseling office. Students will have the opportunity to meet individually with the counselor at least once during each school year to discuss class schedules and career planning. The counselor will always respect a student's confidentiality.

CREDIT EARNED TOWARD GRADUATION

Regular Credits

Each one-year class a student completes at Granger with a grade of "D" or better will earn one credit towards high school graduation. Credit will be assigned to the following learning situations:

1. Classes transferred from an accredited, state approved high school program.
2. Classes taken in an approved community or junior college "Running Start" program.
3. Credit earned while attending the Yakima Valley Vocational Skills Center as a student from Granger High School.
4. Credit earned while attending Upward Bound's summer program**.**
5. Administration Discretion**.**

Each class passed during a semester earns 1/2 credit toward graduation with the exception of Advisory, which earns ¼ credit. A full-time student can earn 3.75 credits per semester.

Credit Denial

Granger School District respects the goals and future plans of our students. We are the pathway to our students' career, college and life goals. Therefore, we believe that when a student does not meet their own potential by their inability to attend school they are indeed losing a future opportunity to gain a living wage paycheck. **Students earn their paycheck by attending classes on time and completing their courses on track**. When they are absent or not attending to "work related training" they are indeed" suffering a loss of pay". Therefore, any student who misses more than nine (9) days during any one semester of classes will have a reduction of credits in those courses. The following chart indicates how this process affects the future opportunity of our students beginning on the 10th absence.

Number of absences.	% Credit Earned	Credit Amount
0 – 9 absences	100%	.50 credit
10 -18 absences	75%	.38 credit
19 or more absences	50%	.25 credit
NOTE: EVERY ABSENCE EXCEPT SCHOOL RELATED COUNTS TOWARD THE CREDIT LOSS DESCRIBED.		

For extenuating circumstances which are beyond the student and the parent's control, it is possible to make an appeal for reinstatement of full credits. The request for appeal for reinstatement of full credit must be made in writing within 10 days after the end of the semester in which the credit is reduced.

GRANGER HIGH SCHOOL STUDENT CONDUCT PHILOSOPHY

The basis for student conduct at Granger High School is respect for the safety and welfare of others and the proper care of the building and equipment. Courtesy towards others is a must. Misconduct may result in after-school detention, free-time detention, in-school suspension, Saturday School, out-of-school suspension or expulsion.

PURPOSE OF RULES

It is the purpose of the discipline rules of Granger High School to provide a guideline for maintaining a safe and productive environment for students to attend classes and extra-curricular activities. It is the school's belief that these rules prescribe behavior that is "reasonable" within a public school and reflects the standards of the community. One of the most important lessons education should teach is discipline. While it does not appear as a subject, it underlies the whole educational structure. It is the training that develops self-control, character, orderliness and efficiency. It is the key to good conduct and proper consideration for other people.

STUDENT BEHAVIOR CODE

At Granger High School courtesy and common sense are the principles that guide our actions. We believe for learning to occur in the classroom, good order must be maintained. By emphasizing respect for ourselves and others through responsible behavior we can maintain a positive school environment.

At GHS students are responsible for their actions and they are held accountable for following all rules and regulations established by the Granger School Board and the GHS administration and staff. A student who is found to be in violation of any of these rules is subject to discipline, suspension, or expulsion from GHS as provided for in the Common School Laws of the State of Washington Chapter 180.40 W.A.C.

The sanctions imposed for rule violations generally will be of a progressive nature. The severity of the disciplinary action may be influenced by the frequency of violations, the seriousness or severity of the violation, and other factors contained in WAC 180.40, or which have a substantial disruptive effect of the educational process. PROVIDED, that in those cases where violations of school district rules result in serious damage to persons or property, and/or have a substantial disruptive effect on the educational process, the student involved may be subject to long-term suspension or expulsion, even though lesser force of corrective action or punishment may modify his or her conduct.

The following Student Conduct Code and Appeals Process have been adopted by the Board of Directors to protect the rights of all members of our school community in fulfilling their responsibilities. The school district reserves the right to refer to the appropriate non-school agency any act or conduct of its pupils which may constitute a crime under federal, state, county, or local law. When a student is suspended, the student will not be allowed to participate in, or attend, any extra-curricular activities, either practice, competition, or spectating during the suspended time, including "In-House" suspension. Effective implementation of these guidelines requires the exercise of good faith on the part of students, parents, and school personnel.

The Granger School District will not tolerate gang related behaviors. Consequences will be immediate suspension/expulsion.

GRANGER HIGH SCHOOL HAS A TOBACCO-FREE CAMPUS AS PER WASHINGTON ADMINISTRATIVE CODE R.C.W. 28A .210. 310.

STATE LAW AND DISCIPLINE

All the discipline policies of the Granger School District are in compliance with the rules prescribed by Washington Administrative Code (W.A.C. 180-40). It is not the intent of any of the rules of this high school to infringe on the substantive or material rights of any student or his/her parents.

For rule infractions of a non-flagrant nature, GHS students will follow a progressive "STEP" system of discipline. It is the school's intention that this system of discipline will reinforce the necessary self-control, which students must exercise in order to participate in the educational experience. NOTE: Some incidents, such as those marked in the list above, are of a flagrant nature. These misbehaviors may be so disruptive as to warrant immediate move to a higher level of the STEP system.

- STEP 1 – Documented student/teacher conference, parent notification optional. **(Teacher's responsibility)**
- STEP 2 – Documented student/teacher conference, along with parental notification. **(Teacher's responsibility)**
- STEP 3 – Student/principal or administrative assistant conference, parental notification, one to five hours of detention, Saturday School or school service work assigned.

- STEP 5 –Suspension out-of-school for a minimum of six and a maximum of ninety school days (WAC 180 40 260-317), or emergency expulsion if warranted.

Our goal in providing this service is to promote educational excellence by facilitating resource sharing, innovation and communication.

The Internet is an electronic highway connecting thousands of computers all over the world and millions of individual subscribers. Students and teachers have access to:

1) Electronic mail communication with people all over the world. Information and news from NASA as well as the opportunity to correspond with the scientists at NASA and other research institutions.
2) Public domain and shareware of all types. Discussion groups on a plethora of topics ranging from Chinese culture to the environment to music to politics. Access to University Library Catalogs, the Library of Congress and ERIC.

With access to computers and people all over the world also comes the availability of material that may not be considered to be of educational value in the context of the school setting. Granger School District has taken precautions to restrict access to controversial materials. However, on a global network it is impossible to control all materials and an industrious user may discover controversial information. Granger School District, firmly believes that the valuable information and interaction available on this worldwide network far outweighs the possibility that users may obtain material that is not consistent with the educational goals of the District.

Internet access is coordinated through a complex association of government agencies, and regional and state networks. The smooth operation of the network relies upon the proper conduct of the end users who must adhere to strict guidelines. In general this requires efficient, ethical and legal utilization of the network resources. The following guidelines are provided so you are aware of your responsibilities. If a Granger School District user violates any of these provisions, his or her account will be terminated and future access could be denied. The signature(s) at the end of this document is (are) legally binding and indicates the party (parties) who signed has (have) read the terms and conditions carefully and understand(s) their significance.

GRANGER SCHOOL DISTRICT ATHLETIC/ACTIVITIES CODE
2011-2012

PHILOSOPHY OF ACTIVITIES PROGRAMS

The activities program in the Granger School District is intended to provide students at all levels an opportunity to improve and achieve excellence through participation in voluntary school activities, including athletics, while maintaining a strong emphasis on academic achievement and developing productive, positive citizens.

Goals

It should be understood that participation in athletics is voluntary, and hence it is a privilege, not a right. The principles concerning competition and participation should foster a development of the following:

- physical fitness
- skills and abilities
- mental alertness
- discipline
- leadership
- upstanding character
- commitment to team
- high self esteem
- good sportsmanship
- desire to excel
- courage to perform & do what is right
- appreciation for success in all types of sports and activities

Ultimately, we are striving to instill in participants the value of competition, sportsmanship, teamwork, and discipline to help them achieve life-long success in our competitive world. The purpose of this code is to establish and maintain high standards of conduct for Granger School District activities participants. The activities code is intended to guide and help students and parents understand the conduct that is expected of activities participants in our school district and also to understand the seriousness with which infractions of the code are viewed. It is hoped that the code will avoid the need for disciplinary action. Because activities participants are representatives of our school, their conduct on school property, in public places, or elsewhere shall comply with the highest standards of personal integrity. Any conduct which is not consistent with the conduct expected of our activities participants as specified in this code may result in suspension of the privilege to participate.

Activities participants involved in competitive activities are expected to exhibit a competitive spirit while at the same time showing good sportsmanship in competition. The participant has a responsibility to demonstrate loyalty to the school and to his or her teammates and coaches, while at the same time showing respect for opponents, officials, and fans. If the participant verbally or physically behaves in a manner that brings disgrace or disrespect to the school district or his or her teammates, he or she may face disciplinary action.

This code is in force once the participant has signed it and returned it to the coach/supervisor or the Activities Director. The code continues to be in force until the final event for the sport season for which the student has signed it. That event is usually the state tournament or the Sports Awards night.

General Conduct

Activities participants are to abide by the rules and regulations stated in the school's student handbook. An incident deemed severe or extreme by the school district staff or frequent or repeated disciplinary action because of poor conduct is sufficient cause for corrective action and/or dismissal from the team. Disciplinary sanctions may carry

over from one school year to the next, or from one season to the next. In the event that a participant is suspended or dismissed from a team due to a violation of this code, s/he will have due process by following the appeals process according to school board policy.

Rules of Conduct

1. Participants shall not commit any theft of goods, equipment, or property belonging to the school or others.
2. Participants shall not commit any vandalism or illegal destruction of property.
3. Participants shall not engage in any serious unethical conduct.
4. Participants shall obey all laws of the community, state, or country, or otherwise shall not engage in illegal activities.
5. Participants shall not be involved in bullying, intimidation, harassment, or hazing of any type.
6. Profanity of any kind will not be tolerated.

Penalties for Violating the Rules of Conduct

The coach and activities director, with help from the principal if need be, will determine an appropriate penalty which is commensurate with the seriousness of the infraction, giving due consideration to the nature of the offense and the student's past record. The penalty may include reprimand, suspension from activities participation, or termination of activities privileges altogether.

Eligibility Rules

In order to participate in extracurricular activities in the Granger School District, a student must comply with the following eligibility rules. Current WIAA rules and regulations will be in effect at all times. Familiarize yourself with the WIAA rules by looking through their handbook in the Activities Director's office or by visiting their website.

Academic Eligibility

In order to be eligible to participate in interscholastic activities, the WIAA demands that all students be passing 4 out of 5 classes, 6 out of 7, or 7 out of 8 classes at the semester. Any student who does not pass the required number of classes based on the WIAA Standard in the WIAA Handbook will not be allowed to compete in contests for a minimum of 3 weeks for middle school students and 5 weeks for high school students. In the fall semester, the period for ineligibility for high school students will last through the last Saturday in September. After the 3 or 5-week period, the student must submit a grade check form to his or her coach to show that s/he is passing the minimum number of classes. If the student is passing the required minimum, s/he will be allowed to return to competition. If the student is not passing the required minimum, s/he will not be allowed to compete until s/he is passing the required minimum number of classes.

In addition to the WIAA standards for academic eligibility, the Granger School District has established an eligibility policy for our participants as well. Grades will be checked on a bi-weekly basis. Every two weeks teachers will submit to the Activities Director a list of any students who are failing at that time. Participants must be passing all of their classes at the time of the grade check to be eligible to compete or perform. When a student has received an F in a class, s/he will sit out of competition/performances until s/he has gotten the grade up. In order to become eligible, s/he will need to show his or her coach a note that states that s/he is now passing. ***Any student who has multiple F's may not practice until s/he has only one F. The student still cannot participate in competitions or performances until all grades are passing.*** Students who sit out of competitions or performances over the course of four grade checks due to failing grades on grade checks during that season ***will*** be dismissed from the team.

Detention & Suspension

The activities program believes that participants should not be getting detentions or suspensions of any kind. However, in the event that a participant does receive detention or suspension, the following guidelines will apply.

Students who receive an after-school detention and miss practice time due to the detention will be dealt with accordingly by their coach. Students who are in after-school detention on home game days will also be dealt with by their coach. Students who miss the bus on away game days due to a detention will not be allowed to play that day.

Students who are on in-school suspension will be dealt with on an individual basis by their coach, the athletic director, and the principal. Students on out-of-school suspension are not allowed to be at school or at any school event during their suspension. This includes practices, games, or any other team function.

Ineligible Players' Status with the Team for Competitions

Participants who are ineligible from competition/participation due to grades or behavior issues are not allowed to travel with the team to away games if the team will miss any school time to do so, or if there is no room on the bus/Suburban. Coaches may choose to not allow them to travel at all. Ineligible players may sit on the team bench if the coach approves, but they may not be dressed in their uniform.

Total Semesters of Eligibility

After entering or being eligible to enter the seventh grade students shall have six (6) years of interscholastic eligibility. If the seventh or eighth grade is repeated, and such repetition is based upon documented academic reasons, the repeated year shall not count against the student's six (6) interscholastic competitive years. After entering or being eligible to enter the ninth grade, a student shall have four (4) consecutive years of interscholastic eligibility.

Enrollment and Regular Attendance

A student must be enrolled and in regular attendance within the first fifteen school days in a semester at the start of the current semester in order to participate in interscholastic contests during the current semester. A student must be in attendance 15 weeks during an 18-week semester. A ratio of 1 unexcused absence to 6 attendances constitutes irregular attendance. (WIAA Handbook, Section 18.8.0)

Age Limits

High School – Students shall be under 20 years of age on September 1 for the fall season, December 1 for the winter season, and March 1 for the spring season.

Middle School – Students shall not have reached their 15th birthday prior to June 1 of the previous school year. (WIAA Handbook, Section 18.4.0)

Paperwork Necessary for Participation

All extracurricular activities participants must have the following paperwork turned in to their coach/supervisor or the Activities Director prior to the first practice.

Physical Examination (Athletes only) – Physical exams are good for a period of **two (2)** years.

GSD Activities/Athletics Clearance Form – This sheet is the ONLY sheet that the participant and the parent will sign and return. This form replaces the old insurance form, medical release form, and safety guidelines form, as well as the signature page for the Activities/Athletic Code.

Activities Code & Safety Guidelines – Please read through these and keep them at home for reference .

Concussion Information Sheet *New* - Due to a new state law, all athletes must read and sign the "Concussion Information Sheet" that is part of the paperwork.

ASB Card – The ASB card must be purchased from the school office prior to the first competition. It allows participants to get into home events for free and away events at a reduced rate.

Participants will not be allowed to participate without a current physical exam on file. They must also have the GSD Activities/Athletics Clearance Form and the new Concussion Information Sheet completed and handed in to their coach or Mr. Pearson in order to be able to practice.

Attendance

Activities participants must be in attendance at school on the day of a contest to be eligible to participate. In the event that a participant has an excused absence for any portion of the day of the contest, it must be cleared by the Activities Director or his designee. Generally, this rule applies mainly to doctor's appointments and family emergencies. The participant should have an explanation of the absence in writing. This rule also applies to a non-school day for attendance on the previous school day.

Any unexcused absence shall result in the participant not being allowed to participate in that day's competition/performance. In the event that there is confusion as to whether the absence is excused or unexcused, the participant will be allowed to participate that day. If it is found that the absence was in fact unexcused, the participant will not be allowed to participate in the next competition/performance.

On days when participants are practicing, if a student has an unexcused absence for any portion of the day, he or she will not be allowed to practice that day. In the event that there is confusion as to whether the absence is excused or unexcused, the participant will be allowed to participate that day. If it is found that the absence was in fact unexcused, the participant will not be allowed to participate in the next day's practice or competition/performance.

Travel

Participants are expected to travel with the team or group in school-provided transportation. However, participants may ride with parents/guardians or the parents'/guardians' designee(s) provided a written request is made and it is acceptable to the supervisor of the activity. "Alternate Form of Travel" request forms are available from the Activities Director and the supervisor of the activity. When the participant does take an alternate form of travel, the parent/guardian or designee must make personal contact with the supervisor so that the supervisor may release the participant into that person's care and responsibility.

As at all times, when the group is traveling, participants are expected to behave in accordance with the school rules, Activity Code guidelines, and the rules of the specific activity and the rules of the bus. If a bus driver requests compliance from a participant on the bus, the participant must abide by the driver's request. Problems stemming from poor behavior on bus trips may result in discipline from the coach and/or the school, depending upon the seriousness of the infraction. Bus drivers have the same authority for disciplining participants while on bus trips as do coaches.

Transferring from One Sport to Another

When an athlete voluntarily chooses to quit a team, he or she may go out for another team during that same season, provided that it is still prior to the first competition. The athlete needs to tell the coaches of each sport that this is his or her intention. It is up to the coaches to determine if this is acceptable to both of them. If it is after the first contest and an athlete wants to quit one team and turn out for another, the athlete must secure permission to do so from both coaches and the Activities Director. After one half of the season is over, an athlete should not be allowed to transfer from one sport to another unless there are extenuating circumstances.

Any athlete who was dismissed from a team may turn out for another team with the approval of the coach of each team and the Activities Director. Any athlete who was cut during tryouts for a team may automatically go out for another team. Again for both of these instances, after one half of the season is over, an athlete should not be allowed to transfer. When an athlete does switch sports, he or she must start over the minimum required practice days. Practices for one sport cannot carry over to the other sport.

Lettering Requirements (High School)

Lettering requirements for each sport will be determined by the head coach of that sport. With regards to the specific sport lettering requirements, head coaches will determine who letters and why, ***with input from the athletic director if necessary***. Participants should make sure to find out the specific lettering requirements for their activity at the beginning of the season. Any student who does not finish the season in good standing due to academic or disciplinary reasons or quitting the team will not receive a letter or any other awards he or she may have been entitled to. Also, if an athlete was suspended for a second or third offense of the drug and alcohol policy, he or she will not letter for any sport for which he or she is suspended. ***The athletic director may determine if the issues listed above warrant that a participant not receive a letter or award.***

Tattoos

Granger School District reserves the right to have participants cover up tattoos that may be deemed inappropriate or that could be considered as a potential threat to the safety of the school. The administration or designees thereof will be the ones who determine if a tattoo should be covered. In most instances, a bandage that covers the tattoo completely will suffice. The covering must be on for the duration of the event.

Internet Use Issues

Participants need to be careful as to how they use the internet. They should refrain from disparaging remarks about individuals and teams from their own and other schools. While sites like Washington Preps, MySpace, and Facebook have their merits, participants need to act responsibly when using them. Pictures and comments on these and other sites that indicate violations of the Activities Code may be used to prove such violations.

Drug/Alcohol/Tobacco Policy

The Granger School District Activities programs recognize that alcohol, tobacco, and other drug use, including anabolic steroids, is not conducive to a healthy lifestyle, athletic competition, or other school activities. Unlawful possession and illicit use of alcohol, tobacco, or other drugs will not be tolerated. Students who choose to participate in extra-curricular activities in the Granger School District will abstain from using controlled substances, such as alcohol, tobacco, or illegal or illicit drugs, including illegally using and/or distributing prescription drugs. Abstaining includes not attending parties and other informal gatherings where there is underage consumption of alcohol, tobacco, and other drugs.

In addition, participants shall not possess, manufacture, transfer, deliver, conceal, sell or distribute alcohol or other drugs, nor be under the influence of such substances. This includes benign materials that are designed, packaged, and intended to represent illegal or prescription drugs. Possession is defined as actual or constructive. Constructive possession can occur when there is no actual physical possession, but the person has dominion and control over the substance, i.e., in a locker or bag belonging to the person.

In all cases regarding the possession, either actual or constructive, sales, manufacture, distribution, or transfer of alcohol or drugs to another individual, the evidence will be secured and turned over to law

enforcement authorities. The school district will cooperate with law enforcement and juvenile court authorities in the prosecution of established cases. Parents will be notified of such instances in a timely fashion.

This policy also covers prescription medications that are distributed illegally. **In addition, over the counter medications may not be distributed among participants. For example, students may not give aspirin, Tylenol, ibuprofen, or other over the counter medications to one other. This would constitute a violation of this policy.** Students are not allowed to use prescription and over the counter medications that are for legitimate purposes without prior arrangements between the school district and the participant's parent/guardian or their physician. Also, the legal distribution of over the counter medications by school district employees to participants for their consumption will not be allowed without prior arrangements between the school district and the parent/guardian or their physician. **A first offense of this portion of the rule by an activities participant will result in a conference with the coach or supervisor and the Activities Director to discuss the severity of these actions. A second offense will be treated as a first offense in the Drug/Alcohol/Tobacco policy penalties. (See "Penalties for Violation of Drug/Alcohol/Tobacco Policy" below.)**

Penalties for Violation of Drug/Alcohol/Tobacco Policy

First Violation of the Drug/Alcohol/Tobacco Policy- A participant shall be immediately ineligible for interscholastic activities participation in the current program for the remainder of the season. Ineligibility shall continue until the next season in which the participant wishes to participate unless the student accesses the assistance program outlined in B (below).

A. In order to be eligible to participate in the next season, the participant must meet the school eligibility board consisting of coaches and administrators selected by the principal, to request approval to participate. The school eligibility board will recommend to the principal appropriate action to be taken in the participant's case. The school principal shall have the final authority as to the participant's participation in the interscholastic activities program.

B. A participant who seeks and receives help for a problem with use of legend drugs (RCW 69.41.010 identified substances) or controlled substances and controlled substance analogs (RCW 69.50.101 identified substances) shall be given the opportunity for assistance through the school and/or community agencies. The participant must schedule to meet with the school district's drug and alcohol counselor/intervention specialist. The participant must meet with the intervention specialist for a minimum of 10 meetings. In no instance shall participation in a school and/or community approved assistance program excuse a participant from subsequent compliance with this regulation. However, successful utilization of such an opportunity or compliance with the athletic code by the student-athlete may allow him/her to have eligibility re-instated in the activities program, pending recommendation by the school eligibility authority. This re-instatement may only occur after the participant has sat out at least 50% of the season and has begun meeting with the intervention specialist. If the participant does not set up and then continue meeting with the specialist, s/he will be suspended until s/he begins meeting the specialist again. If the violation occurs late enough in the season that the participant cannot complete the 50% season suspension, s/he must finish the suspension in the next season for which the student turns out.

In order to encourage participants to be forthright and truthful in the event they made a mistake, if a participant self-reports his or her first violation of the Drug/Alcohol/Tobacco policy, the suspension period for that violation will be shortened to 25% of the season. The principal, activities director, or designee will

determine if a participant did in fact "self-report" the infraction. All other requirements of a first-time offender listed above will be in effect for a participant who self-reports.

Second Violation of the Drug/Alcohol/Tobacco Policy – A participant who again violates any provision of RCW 69.41.020 through RCW 69.41.050 or of RCW 69.50 shall be ineligible for interscholastic participation for a period of one (1) calendar year from the date of the second violation. For a second offense, a participant must have a formal chemical dependency assessment performed by a state-certified chemical dependency treatment agency in order to be allowed to participate in an interscholastic activities program again in the future. The participant and parent/guardian will agree to follow the recommendations of the assessment, which will include a minimum of 10 days of follow-up counseling with the district's intervention specialist. **The participant and his or her family will bear the financial responsibility of the chemical dependency assessment and any treatment if it is so indicated. (See Below for a list of Youth Assessment Treatment Providers.)**

Third Violation of the Drug/Alcohol/Tobacco Policy – A participant who violates for a third time RCW 69.41.020 through 69.41.050 or of RCW 69.50 shall be permanently ineligible for interscholastic participation.

***For all offenses on school property or at a school function, the student handbook discipline code will also be in effect. This will include suspension from school, and a formal assessment will be required to be re-instated. See the student handbook for details.**

**** Extreme Circumstances For any offense of the code deemed to be "extreme in nature", the Activities Director, Principal, Superintendent and/or School Board may choose to supersede the above-mentioned penalties and invoke the "Rules of Conduct" section of this code and administer a more severe punishment.**
